

Care Homes: A Good Place to Live - A Good Place to Die

Conference - Thursday 30 September 2010

Glasgow Marriott Hotel

Following the publication of 'Living and Dying Well: a national action plan for Scotland' to deliver palliative and end of life care, Scottish Care established a group of key stakeholders. The aim is to develop the capacity of care homes to deliver good quality palliative and end of life care, consistent with Scottish Government policies, regulatory requirements and good practice guidance, thereby ensuring that people can make a positive choice to remain in their care home unless there is a need to access specialist care in another environment.

We are delighted to be able to offer you the opportunity to attend a focussed palliative care and end of life conference fully endorsed and partly funded by The Scottish Government with support from NHS Education for Scotland, the Care Commission and the Scottish Partnership for Palliative Care.

The morning programme includes an opportunity to attend two seminar sessions which will provide you with specific information, guidance and support. The afternoon includes examples of good practice in palliative and end of life care.

Outline of programme

08.30

Arrival, Coffee & Registration

09.30

Ranald Mair - CEO Scottish Care - Welcome from the Chair

Panel Session - The Challenge of Turning Aspiration into Reality

15.30

Close

For more details and information on how to reserve a place please turn over or visit www.workforceinitiative.co.uk or www.scottishcare.org

This conference will create a foundation on which to:

- promote the principle that people in care homes can receive effective and appropriate care to the end of life, having access to 24 hour advice and specialists as required
- encourage care homes to incorporate palliative and end of life care as part of their remit and to evaluate the services they offer against the national practice statements
- ensure the integrated use of systems such as DNACPR and the palliative care e-summary, across health and social care delivery
- facilitate the delivery of education and workforce development within care homes in meeting the identified skills needs to provide good palliative and end of life care
- develop and deliver local community health supports for palliative and end of life care in care homes, including services and medication.

Who Should Attend: The conference is designed for those working at a senior level delivering and planning services and those providing care and support to older people & adults across the wide continuum of health and social care services in Scotland:

- Care Home Providers
- Managers and Supervisors
- Trainers
- Private & Voluntary Sector
- Local Authorities
- NHS & NHS Education for Scotland
- Community Services
- Government and Regulatory Bodies
