Palliative Care Community Pharmacy Webinars
A series of 7 short palliative care webinars for front line community pharmacy staff to enhance and support a core palliative care service from your pharmacy

1. Introduction to palliative care
2. Community pharmacy palliative care Network
3. Palliative care resource folder
4. Recognising and prioritising prescriptions
5. Managing symptoms and side-effects
6. Dispensing opioids and patient safety
7. Signposting for patients

Benefits for Patients
- Improved access to palliative care medication
- Improved access to palliative care advice
- Pro-active sign-posting

Your patients need you
- Front line community pharmacy staff are key to driving improvements in palliative care
- You are the first person a patient will have contact with in the pharmacy
- Fore armed with better palliative care knowledge means better care
- Small changes in your practice can lead to big improvements in quality of care and patient experience

Benefits for you
- Cement your understanding of how you are key to improving palliative care for your patients – job satisfaction, improved moral and motivation
- Transferable skills and knowledge
- A continuous professional development (CPD) report that can be saved or printed – demonstrates to employers your commitment to self-development and professionalism

Are you ready to take action?
Each webinar lasts no longer than 15 minutes

Instructions
1. Copy the following link into your browser: http://tinyurl.com/nr4e3ka
2. You will now be on the NES palliative care webinar page
3. Click the relevant webinar title - we suggested that you view the webinars in the order they are listed
4. After completion of all 7 webinars please complete the associated MCQs
5. The MCQ link is located under ‘useful resources’ on the NES webinar page
6. Please read A guide for accessing MCQ and CPD reports, located directly beneath the webinar links, for information on how to access the MCQs and generate a CPD report
7. MCQs must be completed before a CPD report can be generated
